

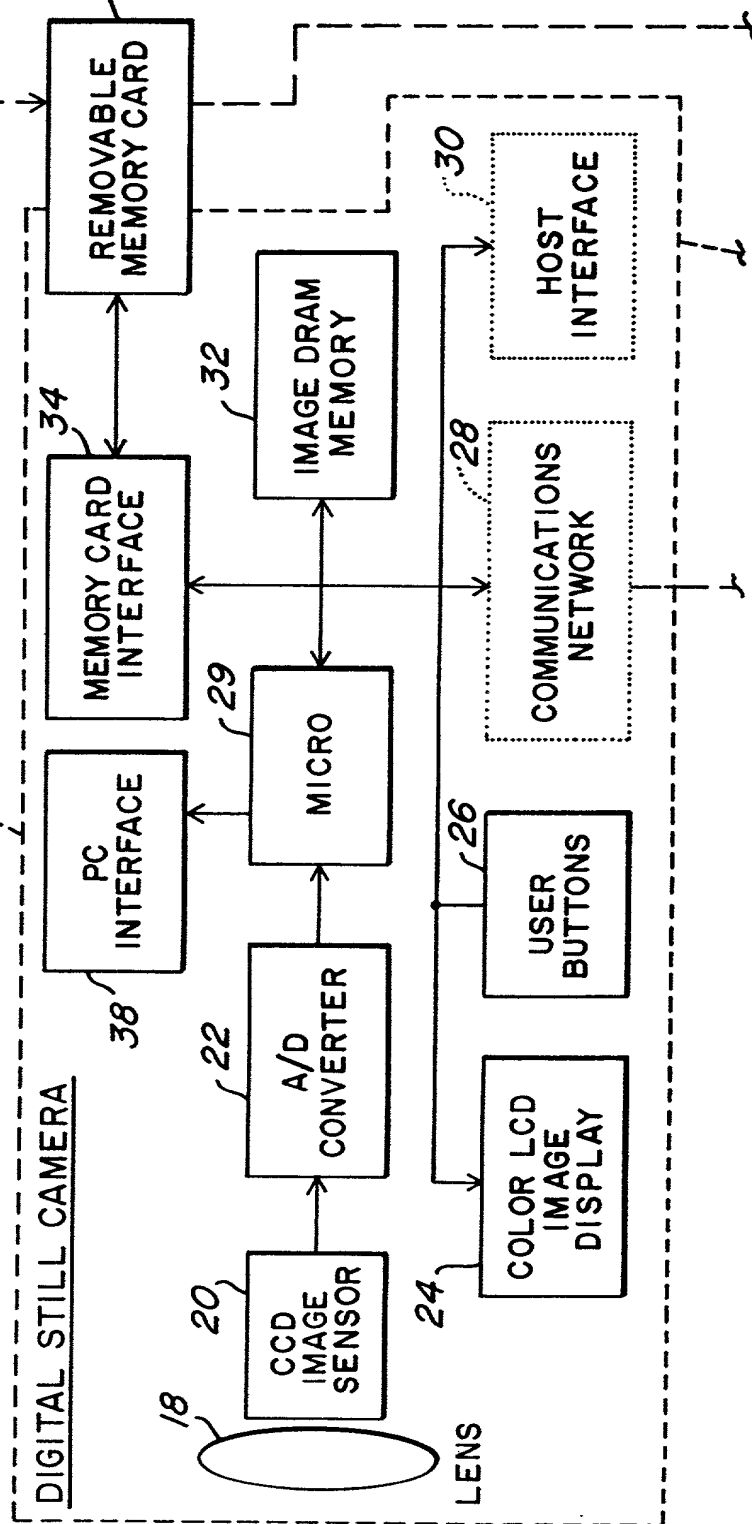

FIG. 1A

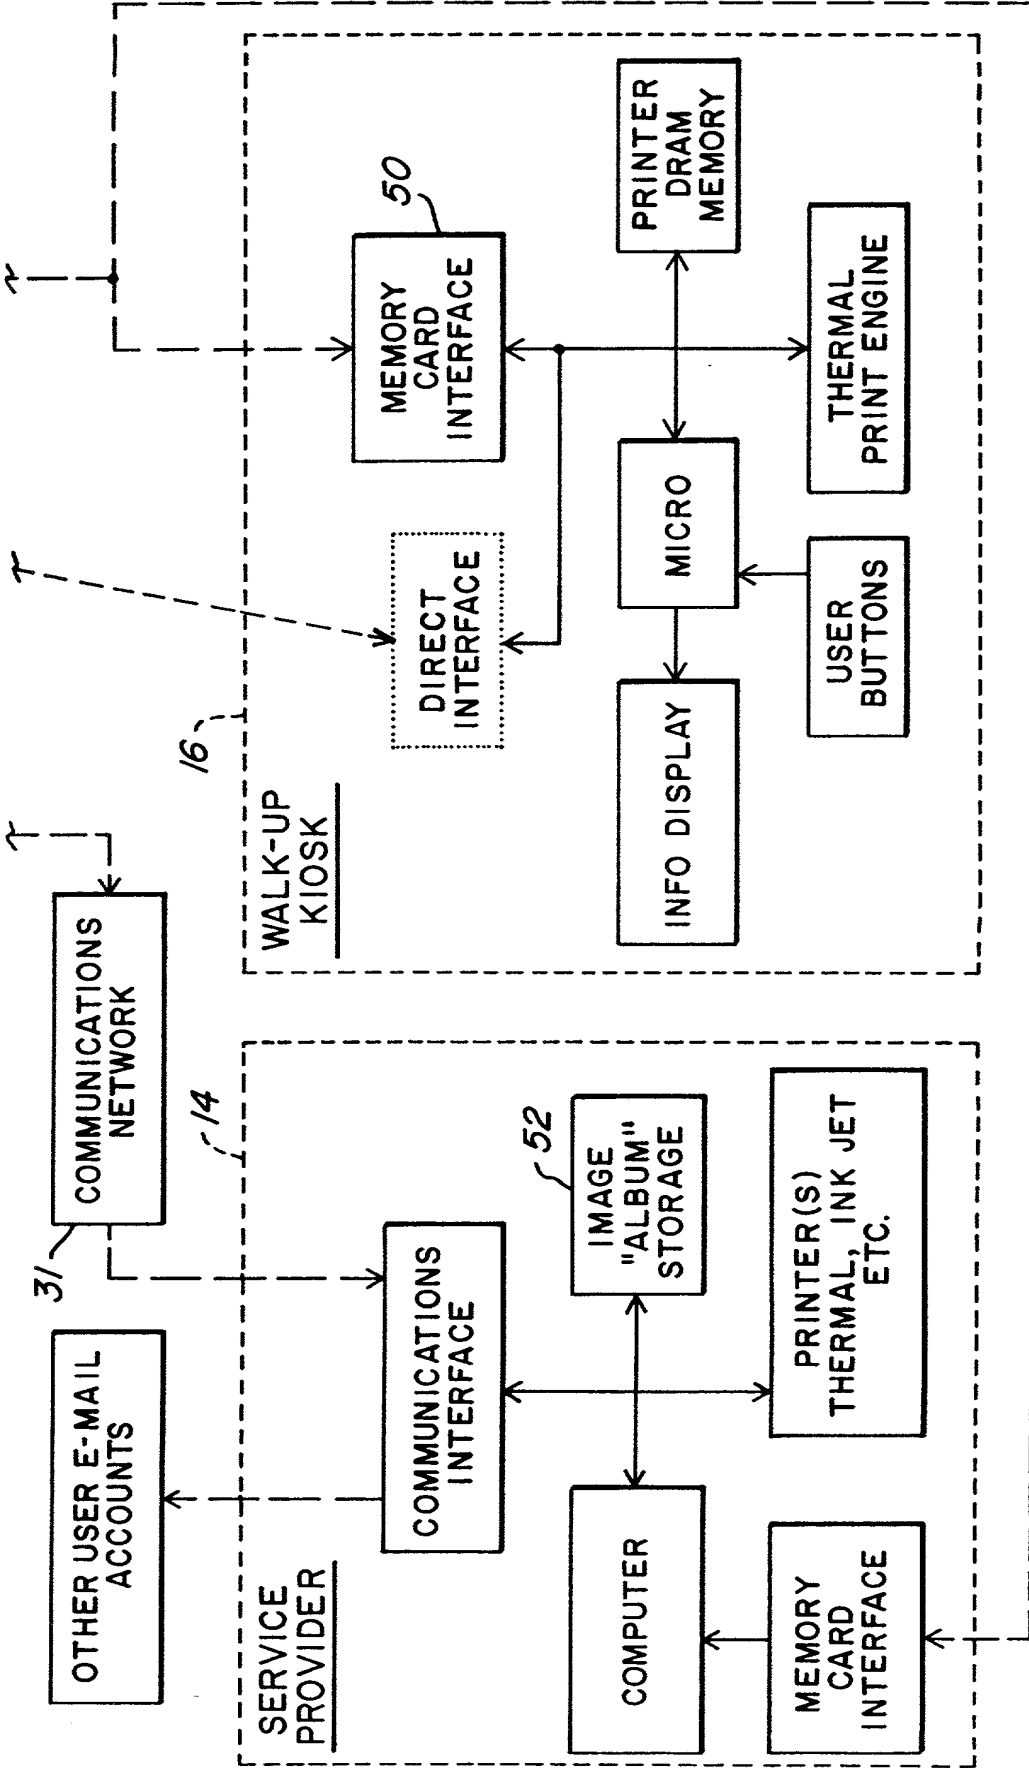

FIG. 1B

FIG. 2 is a flowchart illustrating a process for selecting and ordering prints and images. The process begins with a user selecting images or creatives, which then leads to ordering prints or images. The process includes options for selecting the background and text, and for ordering prints in different sizes and quantities. The process also includes options for sending images to different recipients, such as family members or clients, and for categorizing images based on specific criteria.
